As medical malpractice insurance  
has become more costly and complicated,  
and with seemingly ever-changing regulations,  
partnering with a reputable  
and physician-minded insurance company  
has proven nearly impossible...

**Until now.**

**As one of the most highly respected physicians in your field, we invite you to join us as a stockholder in Doctors' Armor, while simultaneously attaining peace of mind with your own malpractice insurance.**

## **We didn't like the options... so we created our own.**

One might say it is out of pure frustration that Doctors' Armor exists today. In 2006, a group of the most highly respected physicians in Florida decided to make a difference. In response to the commercial insurance carriers' resistance to lowering their premiums — despite the enactment of tort reform years prior — a new type of malpractice insurance was born. One that is physician owned and managed. One that puts the needs of the physician first. One that actually pays the physician back.

### **Turn your malpractice insurance into an investment by choosing Doctors' Armor.**

With most medical liability carriers, doctors simply pay a sizable premium year after year and that money is gone forever. Doctors' Armor, however, provides a unique financial opportunity. Since every insured physician becomes a stockholder, future company

growth provides a likelihood of increased stock value, and a real opportunity for asset growth. This provides residual benefit over time and the potential for a much larger benefit in the future. It is the only malpractice insurance that has a secondary goal of creating a return on investment for you, the stockholder.

### **Doctors' Armor can also help you reduce your practice's overhead.**

As a stockholder in Doctors' Armor, you will also be eligible to participate in Blackmaple Group, a large, nationwide purchasing alliance composed of physicians. Current stockholders are seeing savings of 15-40% on routine purchases of office and medical supplies. Depending on your needs, the overall savings with this one benefit could offset your malpractice premium. We are always working on innovative ways to counteract the cost and frustration of malpractice insurance; this is a perfect example!

**We protect our own. Doctors' Armor not only provides the best financial protection, but also vigorously defends your reputation and professional well-being.**

## You will never want to change your malpractice insurance again.

Like it or not, malpractice insurance is a necessary evil for all physicians. Thankfully, with Doctors' Armor, the decision makers are physicians practicing within your community which means you can rest assured knowing your needs are on point with those of the decision makers. When new legislation changes or liability issues arise — you won't have to wonder if they are being addressed with your best interest at heart — they are at the very forefront of every course of action. This company was not built to please profit-driven decision makers. It was built to protect physicians, by physicians, and reward them financially in the process.

### **Financial stability and personal attention with Doctors' Armor is second to none.**

Doctors' Armor has a strong partnership with its reinsurers, which include several A+ rated medical liability insurance companies. Often, these partners provide more than just reinsurance. If you ever need to utilize your policy, you will have at your service the best financial backing, highly personalized care and attention, and more than 40 years of experience in the medical liability industry. You will not only be vigorously defended and protected financially, but also treated with grace and sensitivity when it comes to your professional well-being.

### **Your coverage includes:**

by Physicians Indemnity

**Become part of something bigger than just an insurance policy.**

Malpractice insurance is an unfortunate necessity. Doctors' Armor gives the control back to the physician. You have been selected to become a shareholder in a company started by physicians, owned by physicians and operated to benefit and protect physicians. Become insured and vested at the same time, while reaping money-saving benefits that will pay you back!
